Project Brief: M.A.C Festival

M.A.C Festival is an annual festival that takes place on M.A.C Ave in East Lansing. It celebrates music, arts, and culture. Many performers and artists in the festival are natives of the Greater Lansing area. Since this is a relatively new festival, the organizers have asked for a website to help spread the word about the events. The website should consist of photos and short bios about this year's performers and artists, and also have a page for people to submit art and music to be included in the festival. The design should draw people in and get them excited for the events that will be taking place.
